

Are you a student engineer looking for a summer or sandwich year placement?

DESIRE TO ACHIEVE | PASSION FOR ENGINEERING | STRIVE FOR EXCELLENCE

SMD are seeking student engineers who are currently looking for summer or sandwich year placements to join our world leading engineers working on global projects.

WHAT'S IN IT FOR YOU?

- Opportunity to be involved in world-first engineering projects.
- Opportunity to have your final year of study sponsored by SMD, with a view to joining our graduate scheme upon graduation.
- Dedicated mentor and support while working through your own project.
- Rotational programme offering training in a range of areas.
- Free onsite catering facilities.

THE SMALL PRINT

We ask that you are currently averaging at least a 2:1 with a view to maintaining your grade during final year. You will be assessed during your placement, if you are hard-working, passionate and share our values the reward will be sponsorship of your final year on the condition that you bring the skills we have taught you back into our graduate scheme.
