

## **Job Opportunity**

### **Field Service Engineers**

We are currently recruiting for a Field Service Engineers to join our Services Team. The purpose of the role, as part of SMD Field Services Limited (SFS), is to provide hands on technical support and operations advice for the full SMD product range both in the factory and at various customer locations worldwide as and when required.

#### **What will I be doing?**

Your job will be to support our products throughout their lifecycle including getting involved in on-site manufacturing, commissioning and factory acceptance testing and then following these products to installation, commissioning, mobilisation and sea trials. You will also get involved in supporting customers with existing equipment.

#### **What Qualifications & Skills do I need?**

We're looking for good team players who have experience of working offshore preferably with subsea and deck equipment. We need people who understand the importance of working in an efficient and safe manner, with excellent problem solving skills to support and maintain the quality of our products. We need people we can trust to support our clients and represent our brand.

We need new team members who either have, or have the capability to attain, the relevant offshore safety, survival and medical certifications. If these are not up to date we will fund them for the right candidates. It would be beneficial for the individual to have an engineering qualification, either mechanical, electrical, hydraulic or multidisciplinary. The role also requires a flexible attitude as extensive travel is a fundamental part of the role.

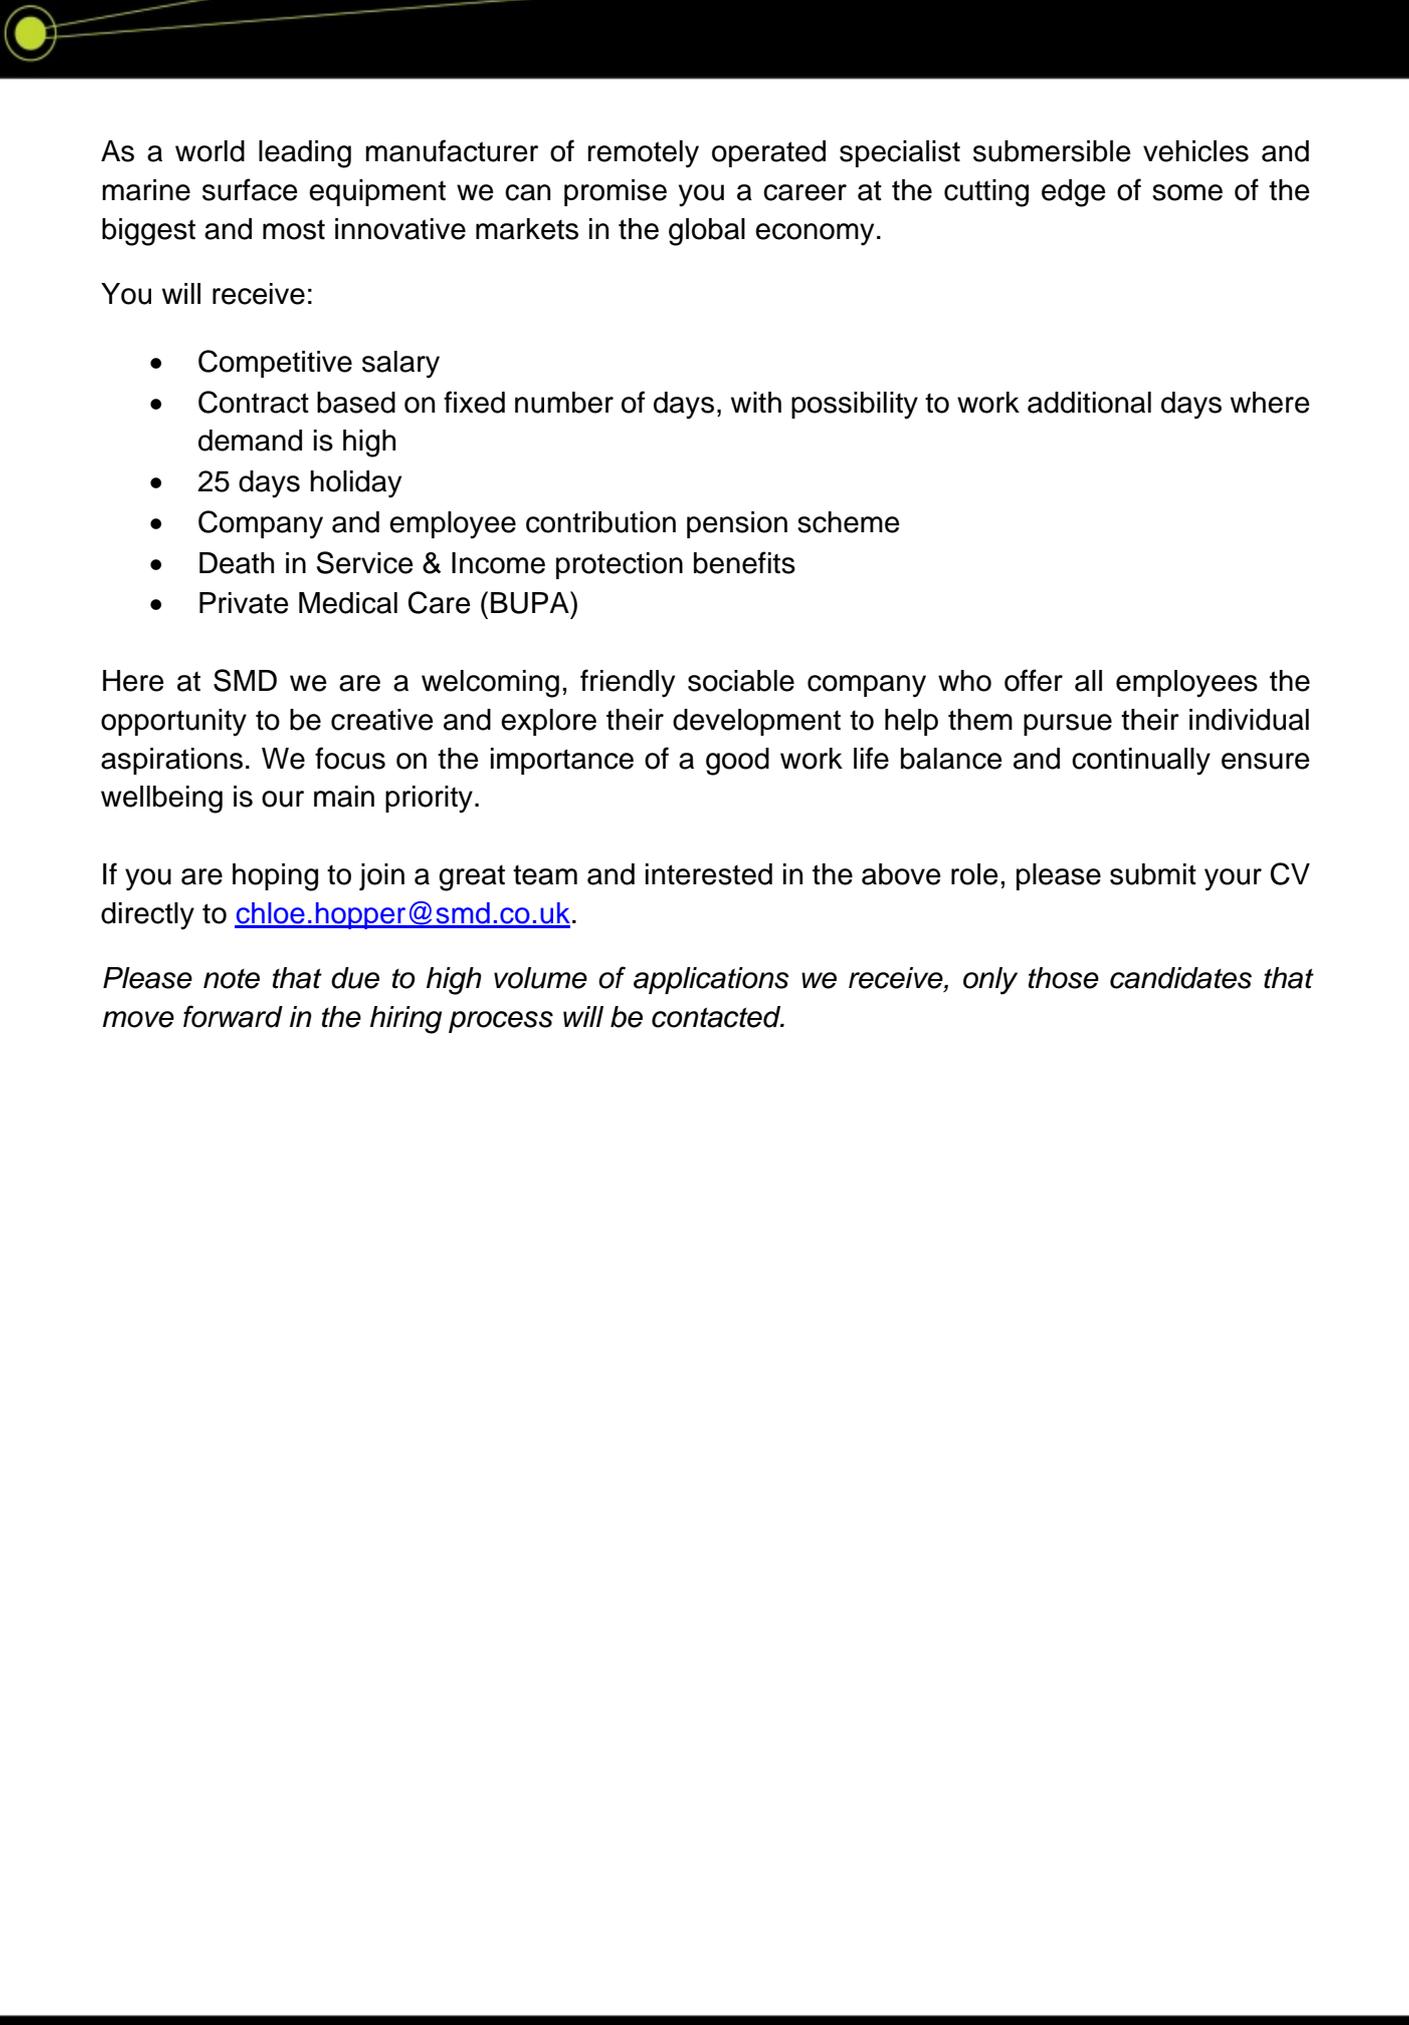

#### **Who are we?**

As the subsea group of CRRC Times Electric, SMD is an advanced global designer and manufacturer of subsea remotely operated and autonomous power and control solutions.

Operating across several technology areas, SMD specialises in subsea trenching, work class ROVs, submerged mining and vessel deck equipment, as well as providing a range of subsea components through the Curvetech brand. SMD Services offer the capability, resources and expertise to support clients in multiple operations; around the clock and on a global scale.

SMD has a passion for excellence, backed by proven engineering expertise and outstanding global service over the last 50 years.

#### **What will you get in return?**

As a world leading manufacturer of remotely operated specialist submersible vehicles and marine surface equipment we can promise you a career at the cutting edge of some of the biggest and most innovative markets in the global economy.

You will receive:

- Competitive salary
- Contract based on fixed number of days, with possibility to work additional days where demand is high
- 25 days holiday
- Company and employee contribution pension scheme
- Death in Service & Income protection benefits
- Private Medical Care (BUPA)

Here at SMD we are a welcoming, friendly sociable company who offer all employees the opportunity to be creative and explore their development to help them pursue their individual aspirations. We focus on the importance of a good work life balance and continually ensure wellbeing is our main priority.

If you are hoping to join a great team and interested in the above role, please submit your CV directly to [chloe.hopper@smd.co.uk](mailto:chloe.hopper@smd.co.uk).

*Please note that due to high volume of applications we receive, only those candidates that move forward in the hiring process will be contacted.*
