

Job Opportunity

Electrical Draughtsperson

We are currently recruiting for an Electrical Design Draughtsperson to join our Engineering team. This is the ideal role for an ambitious candidate with CAD experience and an engineering background to develop their career in a forward-thinking and stimulating environment.

What will I be doing?

As an Electrical Design Draughtsperson, you will have a working knowledge of Electrical Design and will be responsible for designing and producing detailed electrical schematics and associated drawings to tight timescales. You will also create 2D and 3D layout drawings, general arrangement drawings and BOMs as and when required.

You will contribute to the development of new and existing power and control system designs with the aim of reducing complexity and cost, improving maintainability, and increasing performance with a view to maintaining market lead where focus is placed upon delivering quality products to required specifications.

What Qualifications & Skills do I need?

You will have a HNC/HND or BEng (Hons) degree in Electrical Engineering
Strong working knowledge and experience in using Autodesk AutoCAD Electrical
Strong working knowledge and experience in using Autodesk Inventor (or similar)
Experience of Electrical Design
Understanding/knowledge of electrical standards

We're looking for people with a keen eye for quality, accuracy and detail, and positive approach, a flexible attitude to work and the ability to work efficiently and multitask.

Who are we?

As the subsea group of CRRC Times Electric, SMD is an advanced global designer and manufacturer of subsea remotely operated and autonomous power and control solutions.

Operating across several technology areas, SMD specialises in subsea trenching, work class ROVs, submerged mining and vessel deck equipment, as well as providing a range of subsea components through the Curvetech brand. SMD Services offer the capability, resources and expertise to support clients in multiple operations; around the clock and on a global scale.

SMD has a passion for excellence, backed by proven engineering expertise and outstanding global service over the last 50 years.

What will you get in return?

As a world leading manufacturer of remotely operated specialist submersible vehicles and marine surface equipment we can promise you a career at the cutting edge of some of the biggest and most innovative markets in the global economy.

You will receive:

- Competitive salary
- 25 days holiday
- Flexible working options
- Private Medical Insurance
- Flexible benefits including access to car scheme, financial wellbeing platform, gym discounts, cycle to work, retail discounts and number of other selectable salary sacrifice benefits
- Free on site catering
- Company and employee contribution pension scheme
- Death in Service & Income protection benefits

Here at SMD we are a welcoming, friendly sociable company who offer all employees the opportunity to be creative and explore their development to help them pursue their individual aspirations. We focus on the importance of a good work life balance and continually ensure wellbeing is our main priority.
