

Job Opportunity

Electrical Engineers

We are currently recruiting for a number of Electrical Engineers to join our Engineering teams. Primarily, the role will be to design, develop, test, and support electrical power and control systems, along with associated documentation, for our range of existing and future products to enable the Company to stay ahead in the market through its standard product range but also special one-off vehicles.

What will I be doing?

You will be participating in the development of new and existing power and control system designs with the aim of reducing complexity and cost, improving maintainability, and increasing performance with a view to maintaining market lead with focus placed upon delivering quality products to required specifications.

You will be involved in full product life cycle, including system specification, design, build, test, commissioning, documentation, customer acceptance and field support

What Qualifications & Skills do I need?

We're looking for people with Electrical Engineering degrees and a minimum of 3 years' experience in design and manufacturing industries for capital or subsea equipment. Successful candidates will be familiar with PLC/Scada systems Autodesk Inventor and AutoCAD. Experience in motor design, fibre optics, hydraulic schematics and power distribution systems would be advantageous.

Who are we?

As the subsea group of CRRC Times Electric, SMD is an advanced global designer and manufacturer of subsea remotely operated and autonomous power and control solutions.

Operating across several technology areas, SMD specialises in subsea trenching, work class ROVs, submerged mining and vessel deck equipment, as well as providing a range of subsea components through the Curvetech brand. SMD Services offer the capability, resources and expertise to support clients in multiple operations; around the clock and on a global scale.

SMD has a passion for excellence, backed by proven engineering expertise and outstanding global service over the last 50 years.

What will you get in return?

As a world leading manufacturer of remotely operated specialist submersible vehicles and marine surface equipment we can promise you a career at the cutting edge of some of the biggest and most innovative markets in the global economy.

You will receive:

- Competitive salary
- 25 days holiday
- Flexible working options
- Private Medical Insurance
- Flexible benefits
- Company and employee contribution pension scheme
- Death in Service & Income protection benefits

Here at SMD we are a welcoming, friendly sociable company who offer all employees the opportunity to be creative and explore their development to help them pursue their individual aspirations. We focus on the importance of a good work life balance and continually ensure wellbeing is our main priority.

If you are hoping to join a great team and interested in the above role, please use our CV [submission link on the website](#).

Please note that due to high volume of applications we receive, only those candidates that move forward in the hiring process will be contacted.
